*Note that, at the time of publication, there were no applications lodged for coal or petroleum (/gas) titles with the area we have defined as being of interest.*

### 3. Overview Map: With Agricultural Land Classes

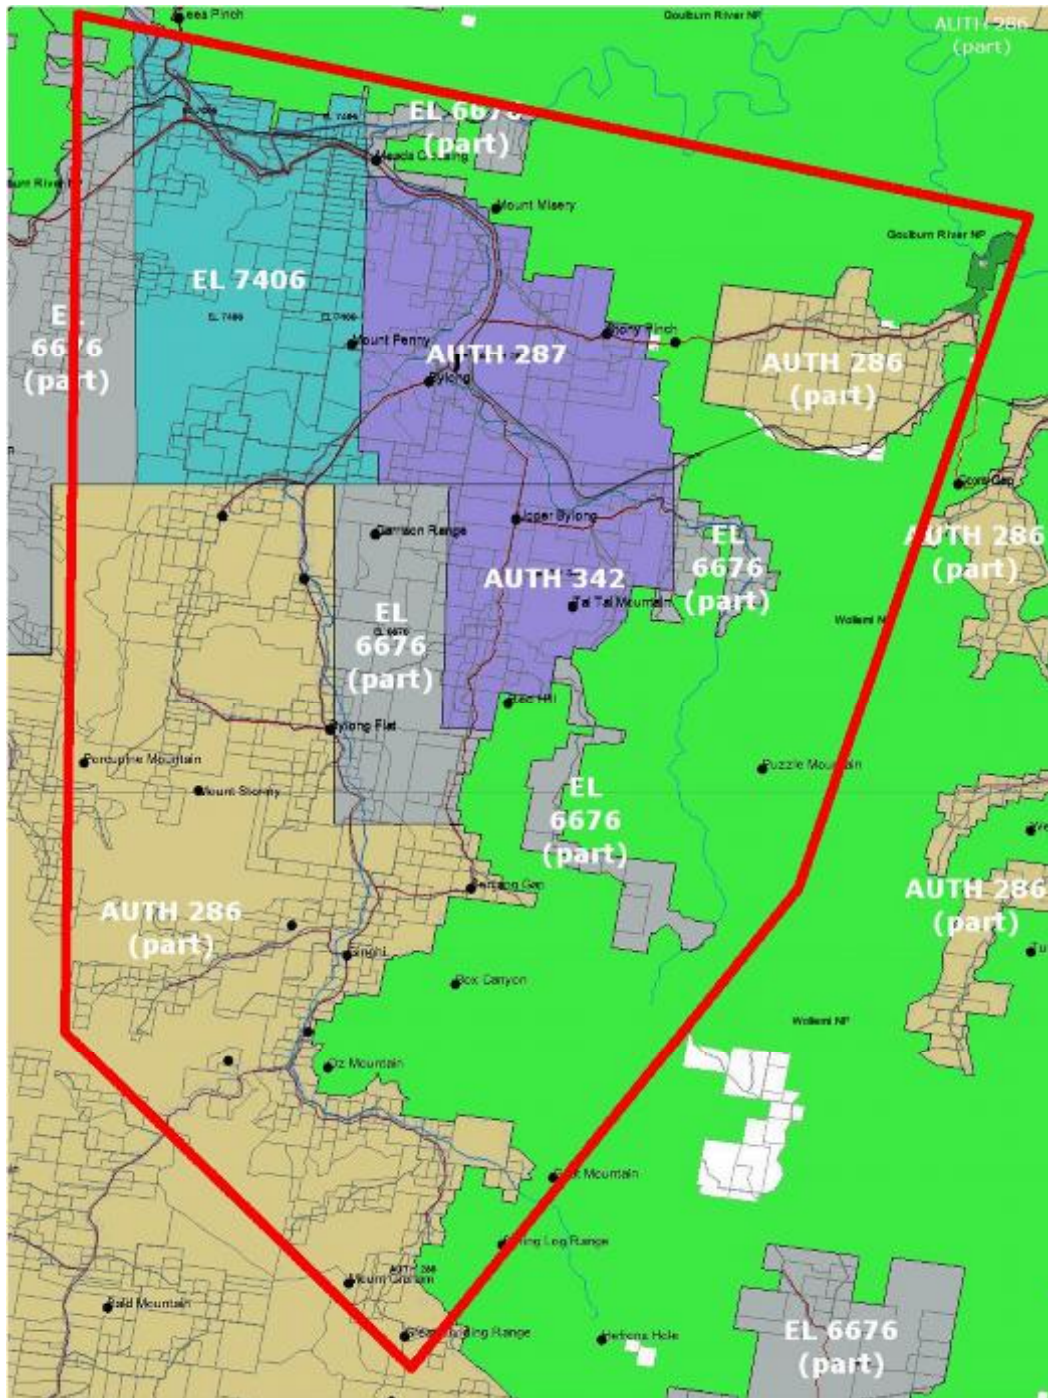

The map shows land class information (provided by the Mid-Western Regional Council) overlaid on the Greater Bylong Valley area. (At the moment, the land class information only covers the northern part of the valley, in the area of the proposed Mt Penny and Bylong developments.)

Much of the area covered by the proposed Mount Penny (Cascade/White Energy) and Bylong Cockatoo/KEPCO projects is prime agricultural land. While definitions vary, 'prime' agricultural land is often taken as being Class 1 or Class 2, although some insist on restricting this just to Class 1, while others prefer a definition that takes in Classes 1-4.

LEGEND: Red = Class 1, Dark Blue = Class 2, Pink = Class 3, Light Blue = Class 4.
